

Odorless Fish Oil Supplement

Omeg·A·G·E

Heart, Bone and Immune Health

- **Kyolic Aged Garlic Extract™**
- **EPAX® Omega-3**
- **A synergistic blend of vitamins D3, K2, E, and B 6, 9, 12**

Omeg-AGE, is a unique multi-system supplement that focuses on supporting optimal cardiovascular, skeletal, and immune health.

Kyolic Aged Garlic Extract is made from 100% *organically-grown* garlic that is aged in a special extraction process that transforms its harsh, odorous compounds into gentler, odor-free compounds with significant health benefits.

EPAX® provides an ultra-pure and sustainable source of omega-3s that are certified by **Friend of the Sea®** (FoS).

The unique combination of vitamins **D3, K2, E,** and **Bs** have been clinically shown to support heart, bone, and immune health.

Heart, Bone and Immune Health

Kyolic Omeg-AGE

is a unique blend of nutrients designed to provide whole body wellness. **Aged Garlic Extract™** and **EPAX® Omega-3s** are scientifically documented for their cardiovascular benefits.* **EPAX® Omega-3** essential fatty acids EPA and DHA are sourced from sustainable, traceable, quality fish oils from Norway that are FoS certified. **Vitamin K2** works to help the body absorb **D3** to support bone and joint health.* Together with the antioxidant protection of **Vitamin E** and the metabolizing benefits of **B 6, 9, 12**, this powerful combination provides a strong foundation for a balanced immune system.*

One serving a day of **Omeg-AGE** offers broad nutritional support for heart, bone and immune health.*

This one-of-a-kind formula starts by combining the heart and immune benefits of Kyolic Aged Garlic Extract™ with the cardiovascular-supporting properties of EPAX® Omega-3s.

Aged Garlic Extract

Kyolic Aged Garlic Extract is made from 100% organically-grown garlic that is aged in a special extraction process that transforms its harsh, odorous compounds into gentler, odor-free compounds with significant health benefits. Studies have shown that Aged Garlic Extract supports healthy blood pressure and cholesterol levels, guards against the accumulation of coronary artery calcification, enhances

circulation, improves immune function, and has a beneficial effect on bone mineral density. With more than 870 published peer-reviewed scientific papers supporting its benefits, Kyolic is the most well-researched garlic product on the market.

Omega-3s

EPAX provides an ultra-pure and sustainable source of omega-3s that are certified by **Friend of the Sea®**, a project of the World Sustainability Organization. Research has found that omega-3s support cardiovascular health by reducing the inflammation that damages the inner lining of arteries, technically known as the *endothelium*.* These healthy fats also reduce triglycerides, lower the risk of arrhythmias, and slow the accumulation of arterial plaque.* There is also evidence that omega-3s improve bone metabolism and enhance the function of key immune cells.*

Synergistic Nutrient Blend

Omeg-AGE also includes a synergistic blend of nutrients, including vitamins D3, K2, E, and B 6, 9, 12, that have been clinically shown to support heart, bone, and immune health. The pairing of vitamin D3 and vitamin K2 ensure that calcium is absorbed easily and reaches the bone mass, while preventing arterial calcification, to keep your heart and bones healthy. In addition to its activities as an antioxidant, vitamin E is involved in immune function and other metabolic processes.

Vitamins B 6, 9, 12 are essential building blocks of a healthy body, and have a direct impact on your energy levels, brain function, and cell metabolism.

Traceability

EPAX Omega-3 has been a marine ingredient leader for more than 180 years. Their vertically integrated supply and quality controlled manufacturing chain allows them to track their ingredients from the fishing boat to the finished product. This traceability not only promotes sustainability, it also ensures that consumers get a high-quality, ultra-pure source of omega-3 concentrate in every dose.

Sustainability

Friend of the Sea, a project of the World Sustainability Organization, awards sustainable practices in Fisheries, Aquaculture, Fishmeal and Omega 3 Fish Oil. It is the only sustainable fisheries and aquaculture certification program recognized and supervised globally by European National Accreditation Agencies.

SUGGESTED USE: Adults take three softgels with a meal daily.
