

FUTURE  *CEUTICALS*

Let's *Discover* What's Possible

Product Guide

Welcome to *FUTURE* *CEUTICALS*

At FutureCeuticals, we create ingredient solutions from fruits, vegetables, and grains. We bring nature and science together through our own clinical research and partner with customers to develop unique solutions for their functional health and wellbeing products.

We are excited to share the following information with you — custom blending capabilities, clinical research, in-house manufacturing solutions, and more!

***Let's start your path to success
with innovative plant ingredients***

“ Our past impacts our present and informs our future. Our teams work hard every day to apply all we know about fruits and vegetables to innovative solutions for our customers. ”

— Jeff Van Drunen

Our Approach to Plant-Based Nutrition

Our robust team of researchers and chemists specialize in the discovery, development and creation of scientifically validated, plant-based ingredient solutions that advance human performance and wellbeing.

Studying the nutritional power of plants at the cellular level allows us to create innovative products that improve and optimize the body's function and performance.

Our advanced analytical capabilities at our Research and Analytical Center (RAC) and human clinical capabilities at our Discovery Research Center provide our partners with the benefit of products backed by published clinical support, a marketing advantage we are proud to offer.

Clinically Researched Ingredients

NatureKnit®

Gut Health Solutions

NatureKnit® is an all natural, patent-pending formula that delivers pre- and postbiotic benefits to nourish the gut microbiome.

- Effective at a minimum 2g dose

[cog-na-teek]

cognatiQ®

Natural Brain Performance

CognatiQ® is a patented coffee fruit extract clinically shown to impact our functional intelligence by improving decisiveness, accuracy, and cognitive control.

- Effective at a 200mg dose

S7® is a combination of seven plant-based ingredients that has been shown to ignite your body's own nitric oxide (NO).

- Effective at a 50mg dose

PROMENTUM™

nature-inspired mobility and longevity

Promentum™ is a patented boro-carbohydrate that supports joint mobility, bone strength, and hormone balance, the way nature intended.

- Effective at 108mg and 216mg doses

Spectra® is a blend of 29 botanicals clinically shown to deliver real antioxidant action, not just potential.

- Effective at a 100mg dose

ElevATP® is a natural complex of ancient peat and apple polyphenols clinically shown to improve strength, power, and performance.

- Effective at a 150mg dose

VitAlign® is a polyphenol-rich formula that helps restore cellular efficiency and balance, supporting metabolic, cardiovascular, and immune health.

- Effective at a 50mg dose

DERMAVAL®
SUPPORTS COLLAGEN FROM WITHIN

Dermaval® is a blend of nine phytonutrient-rich superfoods clinically shown to help protect against collagen and elastin degradation from within.

- Effective at a 50mg dose

Specialty Branded Solutions that Add Value

TruServ® is a proprietary line of fruit and vegetable powders and blends that deliver real whole food serving claims.

Fruit | Greens | Veggie | Red/Orange | Mediterranean Diet

PhytoServ® is a proprietary line of fruit and vegetable extracts and blends that deliver phytonutrient equivalent serving claims.

Fruit Blend | Medley Blend | Superfoods Blend | Veggie Blend

Phyto-C® is specifically formulated to harness the power of plants by delivering all-encompassing antioxidants to support a healthy immune response.

UdderlyOats™ is made from organic, gluten-free oats and is solution dispersible and beverage ready, making it ideal for plant-based milk and other dairy-free alternative applications.

Beverage-Ready Grains can enhance your next clean-label formulation with gluten-free, organic, grain-based hydrocolloids. Get Grains Without the Grit™ from the following products:

Oat | Quinoa | Ancient Grains Complex

Coffeeberry® Energy is a patented extract that delivers organic, native caffeine and polyphenols from coffee cherries, not just the coffee bean.

Coffeeberry® Cascara (Spanish for “husk” or “skin” of the coffee cherry) provides unique coffee fruit nutrients in a fully soluble, beverage-ready format from what was once a waste product of the coffee industry.

Coffeeberry® Coffee Fruit Juice Concentrate is an ingredient created from the concentrated juice of upcycled coffee fruit that can deliver superfruit benefits to a variety of on-trend products.

Custom Blending Capabilities

We can help you from concept to creation as you develop the components of your next stand-out product. Our ingredient portfolio combined with our formulation and manufacturing expertise enable us to create a custom blend that helps your finished product satisfy specific consumer health goals.

Steps to success include:

- ◆ Clarifying your goals together to create a blend with the right benefits and claims to meet your needs
- ◆ Choosing from our expansive portfolio of over 500 fruit, vegetable, extract, and grain-based items
- ◆ Producing your blend at our manufacturing facilities
- ◆ Using our in-house quality teams and laboratories for extensive quality verification

Custom blends also offer you the opportunity to stack your product with ingredients that offer multiple benefits, appealing to your customers looking for more value with their product purchase.

The results? A unique blend to include in your final formulation that's developed just for you and your customers.

Solutions for Key Wellness Categories

Healthy Aging

- ◆ VitAlign
- ◆ CognatiQ
- ◆ Spectra
- ◆ ElevATP
- ◆ Promentum
- ◆ Dermaval

Brain Health

- ◆ CognatiQ
- ◆ Coffeeberry Energy

Gut Health

- ◆ NatureKnit

Active Nutrition

- ◆ CognatiQ
- ◆ Coffeeberry Energy
- ◆ S7
- ◆ ElevATP
- ◆ Promentum
- ◆ VitaCherry Sport

Energy

- ◆ CognatiQ
- ◆ Coffeeberry Energy
- ◆ S7
