

FenuMat®

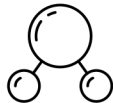

Patented self-emulsifying hydrogel technology offering a clean, plant-based nutrient delivery solution. Clinically substantiated to enhance bioactive bioavailability.

Clinically substantiated through 40+ studies

Patented delivery technology

Enhances nutrient bioavailability

High bioactive loading, lower dosages

Clean label, water-based formulation

Responsibly sourced with full traceability

FenuMat® technology offers a clean, plant-based solution for superior bioavailability of bioactive nutrients, with added taste and odor-masking benefits. Utilizing fenugreek galactomannan, a soluble dietary prebiotic fiber, FenuMat encapsulates essential bioactives within a protective hydrogel matrix. This innovative technology significantly enhances nutrient solubility, stability, and controlled release, thereby improving bioavailability and maximizing therapeutic benefits. FenuMat technology can be applied to various molecules, vitamins, and oils, enabling co-delivery for enhanced efficacy and reduced dosage. It can also be seamlessly integrated into powders, gummies, sachets, and more - meeting the demand for clean label formulations, without organic solvents or synthetic excipients.

CLINICALLY SUBSTANTIATED RANGE OF FENUMAT® PRODUCTS

 CurQfen®

FenuMat® Berberine

 Immufen™

FenuMat® Boswellia

 Asafin®

FenuMat® PEA

 Capsifen®

FenuMat® Quercetin

FenuMat® C

FenuMat® Resveratrol

APPLICATIONS

Vitamins and Minerals

Antioxidants and Oils

Botanicals and Herbals
